

The Wheel Reading

This is a standard Wheel spread covering the next twelve months of the year. The upright card is the *Covering* for that month, indicating the important events, issues, attitudes or influences active during that month. The card placed across it is the *Crossing*, which highlights the obstacles, problems, conflicts and opposition that must be dealt with during that month. The final card, labeled Focus, sums up the overall influences and outcome of the whole twelve month period. A simpler version of the spread can also be used, in which only one card, a *Covering*, is drawn for each month.
