

## Cross-Shaped Spread

(Source material: "Reading the Future" by Didier Colin)

the Layout:

This spread requires only the Major Arcana. The cards are kept and read upright.

Shuffle the deck. Draw four cards. Lay them out as shown in the above diagram.

Turn over the cards. Add all the numbers on the cards, reducing to a number between 1-22. If the Fool appears as one of the cards, add the card in as number 22.

The sum of the numbers becomes the fifth card, which is placed in the center of the spread.

The cards are then read as follows:

Begin with card 5; this is you in regard to your situation (the question).

Proceed to cards 1 and 3; they represent the current situation.

Then move on to cards 2 and 4; they represent the probable outcome of the situation.
