

## Directing Your Person Energy Spread with A Significator

(<http://www.tarotforum.net/showthread.php?s=&threadid=21322> with numerology additions)

Divide your deck into Majors and Minors, and the minor cards into suits.

Draw a cup card for emotional energy,

Draw a sword for mental energy,

Draw a pentacle for financial energy,

Draw a wand for a direction to focus your work.

Cup Card - where should I direct my emotional energy?

Sword Card - where should I direct my physical energy?

Pentacle Card - where should I direct my spiritual energy?

Wand Card - in what direction should you focus your work goals?

For your significator card -

Add the numbers of the four cards above. (0 - 10 only. Court cards have no number).

If the number is greater than 22 (there are 22 majors), then reduce the number down to a single digit.

For example:

$$10 * 9 * 8 * 9 = 36$$

$$3 * 6 = 9$$

Your major significator card would be 9 - The Hermit.
