

Three Wishes

A Magical Spread

Once upon a time there was a magical lamp. Rubbing this lamp produced a Jannie who promised to grant you three wishes. These wishes were quite literal and many fell into the trap of not thinking things through before stating their desires.

Here we have a chance to see what we need to do in order to obtain what we desire. Remember - be careful what you wish for!

Set 1 – Heart's Quest

Ask here what you truly desire in the way of a relationship. This can be related to family matters, partnerships, or love.

Set 2 – Personal Quest

Where do you want to be?
Ask what you truly want and see what it will take to get you there.

Remember, you asked!

Set 3 – The Veil

One wish left. Leave behind the mundane and ask your final wish. What is blocking you and how do you get past these obstacles?

For each set you draw cards until the corresponding suit appears.
